To Whom It May Concern:

I am writing this reference at the request of Brendon Taylor who has asked me to serve as a reference on his behalf. I have known Brendon from the time he started his Bachelor of Science degree in Software Engineering (BSSWE) in April 2024 at Western Governors University. I served as Brendon's Program Mentor during this time, advising him in several capacities while earning his degree.

Brendon completed all his degree requirements in one term (six months), passing each course successfully. His degree also provided him the opportunity to earn three certifications. Based on Brendon's academic success, along with his commitment to meet with me each week, I would rate his academic performance as exceptional.

Brendon has several strengths to offer an employer, and it starts with his positive mindset to achieve any goal he sets. In addition, Brendon is a very fast learner and ready to perform at a high level.

In conclusion, I would highly recommend Brendon. If his performance in the BSSWE program at WGU is any indication of how he would perform in this position, Brendon will be an extremely positive addition to your organization

Sincerely,

Andy Nichols
